

## HFS Milbourne makes it a straight eight!

**HFS Milbourne, Guildford's leading financial services company has strengthened its relationship with Surrey lawyers by renewing sponsorship of the Surrey Law Society's (SLS) Continuing Professional Development (CPD) programme for an eighth consecutive year.**

The CPD programme helps lawyers continue legal education by addressing learning and development needs and forms an integral part of the continuing competence requirement.

In addition to sponsorship of specific CPD workshops throughout the year, HFS Milbourne runs complimentary ad hoc events for SLS members, most recently hosting an investment seminar featuring Stephanie Flanders, chief market strategist Europe at J.P. Morgan Asset Management and former broadcast journalist.

Daniel Church, President of Surrey Law Society said, "HFS Milbourne has been an enthusiastic sponsor of SLS for many years and the investment seminar last year gave useful insight into a dynamic market and was particularly well received.

"We are always looking for ways to offer enhanced services to our members and the generosity of companies like HFS Milbourne

allows us to widen the scope of what we are able to do. We are therefore very grateful for their continued support."

"Our longstanding commitment to the SLS helps us to foster connections with local lawyers which are essential to our business," said Rod Milne, joint managing director HFS Milbourne. "It's a mutually beneficial relationship and we are delighted to be in a position to support SLS for a further year."

HFS Milbourne Financial Services is authorised and regulated by the Financial Conduct Authority (FCA) and specialises in wealth management, pensions, finance on divorce, mortgages, employee benefits and corporate financial planning.
