Small Self-Administered Schemes (SSAS)

A SSAS is available to Directors of Limited Companies and allows company directors to maintain control over their pension arrangements in a flexible and tax efficient environment. The investment powers and flexibility of a SSAS is similar to a SIPP, with the added benefit that a SSAS can lend money back to the employer company.

Loans are available of up to 50% of the SSAS value, and must be on a commercial basis, secured on a suitable company asset.
